The well-known taste of onions is due to a peculiar essential oil con tained in them, and this oil has highly oporific powers, which, in his own case Mr. Buckland evers, never fails; if much pressed with work, and feeling an inability to aleep, his practice is to eat two or three small onions, the effect of which is magical in producing the desired re-pose. Such a remedy has a great advan-tage over the stupefying drugs commonly resorted to for this purpose, and is even preferable to the Liquor opil sedat and chlorodyne of medical practice.
